Any User Classification not addressed on this schedule will be billed using the State of Vermont recommended EU.

To determine the rate per EU the "current user fees" revenue per the budget would be divided by the Equivalent Units assigned to all accounts.

Example: 2023/24 current user fees revenue required per budget = \$331,539.00

2023/24 EUs assigned = 245.34

The rate per EU would be calculated by dividing \$331,539 by 245.34 to equal \$1,351.35 per EU
