For the fiscal year end June 30, 2027: Sewer rents are due and payable in three equal installments: one third on December 1st, one third on March 1st and one third on June 1st

Any User Classification not addressed on this schedule will be billed using the State of Vermont recommended EU.

To determine the rate per EU the revenue needs per the budget would be divided by the Equivalent Units assigned to all accounts.

Example: 2026 updated budget revenue requirements = $377,904

2026 EUs assigned = 245.94

The rate per EU would be calculated by dividing $377,904 by 242.65 to equal $1,539 per EU to make three equal installments of $513
