

**TOWN OF WHITINGHAM
CEMETERY COMMISSION**

REGULAR MEETING

October 05, 2016

ATT: Brad Lackey, Dana Dix, Brad York.

Meeting called to order at 7:04 PM.

No changes or additions to the agenda.

A motion was made by Dana Dix to purchase a metal detector to help in finding grave markers with a price not to exceed \$579.

A discussion of metal detectors followed.

Motion was seconded by Brad Y. & **all in favor**.

There was a discussion about the Jewell Cemetery maintenance. Tyler Resch, a decedent of the Jewell family, was contacted to find out if the family was still maintaining the cemetery. He said “they were not doing the maintenance anymore, but his family had been there recently and someone else had done the maintenance”. At this point, it is not clear who cleaned up the Jewell cemetery this year.

In Sadawga cemetery, Dana and Brad L. had recently been measuring for Lots 196 & 197 and found that the existing grave stones were off the lots toward “open space”. So it was determined that an extra 2 feet could be added to these 2 lots making them a total of 12 feet long and, therefore, making the grave stones located on the lots.

There was a discussion if donations made to the cemeteries should be deposited into the investment account. Further discussion with Almira Aekus is necessary before making a decision.

More maps need to be printed out so Brad York has copies.

A motion was made by Brad Y. to buy a binder for cremation sketches to better keep track of the cremations and where they were being buried.

Motion was seconded by Brad Y. & **all in favor**.

Dana made **a motion** to adjourn, Brad Y. seconded at 8:42 pm. **All in favor**.
